- Figma

Profil

Hi, I'm Saffanah Shofwatun Nisa, but you can call me Saffa!

I'm an Informatics Engineering student at Gunadarma University with a passion for UI/UX design. I love creating seamless, user-friendly digital experiences that combine creativity and problem-solving.

Driven by learning and growth, I explore tools, trends, and methods to craft designs that are both functional and meaningful. From wireframing to prototyping and user research, I'm excited to bring impactful ideas to life.

Let's design the future together!

internship experience

2020

Malang strudel

2021

PT.Ihsan solusi informatika
Sebagai UI / UX Designer

My Project Experience

2019

Project FSRD

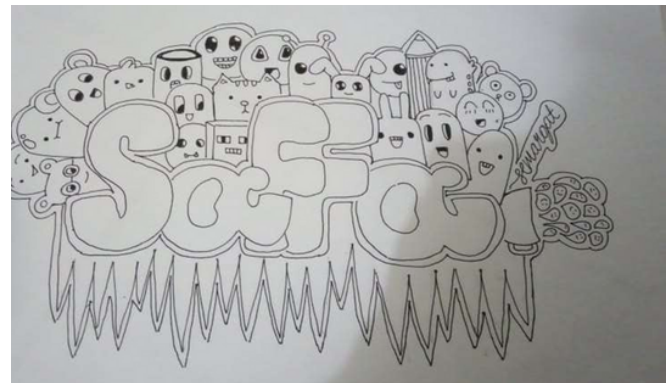

This FSRD project is a project where I learned about fsrd

2020

Doodle Art

This doodle art project is a project where I explore my hobby of drawing by making doodle art which produces output in the form of images and also doodle art t-shirts that I made myself.

2020

Coding

This coding project is the project where I first entered the world of coding because I was very interested in learning it.

2021

Design Application

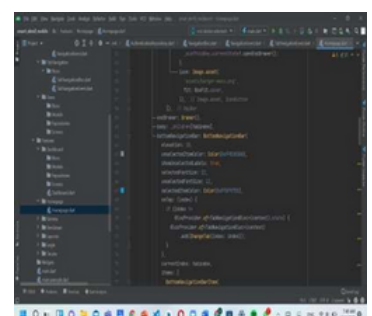

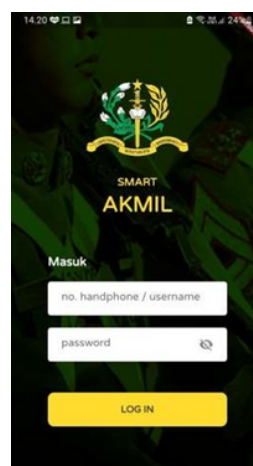

this is my first project to make a very simple application

2021

UI / UX Design

In this project, I took part in an internship where I produced an application from the internship.

School Project Experience

ABhome ON THE ROAD

This is an annual event held by my school, this time my friends and I got the opportunity to be the committee for the event where we will provide breaking of the fast to street fighters in the month of Ramadan.

social project

social project is an activity that moves in the social field, this project helps us increase our sensitivity to the social environment around us. Where we will go directly to the field to conduct a survey with a predetermined theme and make a report to be presented to others.

other experiences

Backpacker (Makassar - Toraja)

Backpacker is an activity of traveling abroad or domestically using a limited budget. My friends and I went to Makassar and Toraja, we explored various culinary delights of Makassar and traveled to museums in Makassar, in Toraja we studied the cultures practiced by the Toraja people.

live in religion (IDN Boarding School)

In this live in religion, we study at the IDN Islamic boarding school for approximately 3 weeks. We carry out Islamic boarding school activities with the students. Because this is a programming Islamic boarding school, while we are here, we are taught programming, such as web design, game creation, robotics, and others.

other experiences

live in technology

In this live-in, we visited a place founded by Mr. Ricky Elson. My friends and I learned a lot about technology, such as windmills, solar panels, etc. In addition, we also gained knowledge about Moringa leaves, and also experience cleaning animal cages and feeding them.

live in sociology

This time we visited not far from Bogor, namely Sukabumi, we visited the Hanjeli tourist village where there are various kinds of processed Hanjeli, we stayed there for about 7 days and did activities with the residents there, we learned about planting, and harvesting Hanjeli. Not only Hanjeli we also went to the rubber plantation to learn to harvest, besides that we also visited various places, such as the Megalodon Museum, turtle conservation, beaches and waterfalls.

"Never put any limitation since you want to start something, but if you have done you know your limitation."
